

I think the traditions are beautiful
the wedding is so beautiful and special
I never knew about all these traditions.
Thank you ELi for your trouble in
educating us about this beautiful religion
and the beautiful wedding.

For me, I love tradition. I am not a Jew, but I found the wedding ceremony and tradition so beautiful and special and it made me very happy to see how symbolic every little detail is, and how involved the family of the couples is.

It was very interesting and informative.
We learned a few things we didn't know
about the Jewish religion.

Very informative

Interesting to see a video of a Jewish wedding instead of just hearing facts

It was exciting to learn about the different religions and see the similarities between my religion and others.

I thought the video on the wedding was very touching. I enjoyed watching the video as it was interesting and showed me every part of the wedding in great detail. I definitely felt like I knew a lot more about Jewish weddings after watching the video.

It was very interesting to have an insight of all the traditions. I loved the video and that I could be part of their happiness
